

After Registration: Share your personal fundraising page on social media

Follow along 5 easy steps and their screenshots to guide you through the process of posting your personal fundraising page to Facebook, Twitter, and Linkedin.

An extra step, <u>Step6</u>, will show you how to copy your personal fundraising page URL (web address) and paste it into other external social media websites to help advocate your fundraising.

<u>Step 1:</u>

From walk.alz.to, login to your Participant Centre by clicking on the top right "Login" button.

Continue to Participant Centre.

<u>Step 2:</u>

To the right, click on the social media icon that you wish to share on. Available are: Facebook, Twitter, or linked in. If your social media Icon you wish to use is not there, please go to **<u>Step 6</u>**.

Type in your message you wish to share on your social media and press "Share".

<u>Step 4:</u>

If you are not already logged into your social media account, it will prompt you to sign in with your social media's username and password. After entering your username and password, click "Log In".

<u>Step 5:</u>

Once you are logged in your message will load, and then will be posted automatically. You will know if it has successfully loaded by a confirmation message, and you will be able to see it posted on your social media.

And that's how you post your Personal Fundraising Page to your social media. 😊

Step 6:

If your social media icon that you wish to use to share your personal fundraising page is not available, you can instead copy and paste your personal page URL from the "Personal Page" tab and directly insert it into a post on your social media account.

Click "Personal Page". Then highlight the URL. Right click, and click "Copy". On your social media account of your choice, "Paste" the URL, and then post your message.
